

Biospecimen Request Letter of Intent (LOI) Template

DESCRIPTION

The LOI should be a brief two-page summary that outlines the rationale for the proposed biomarker, the current evidence for testing of this biomarker, the current experience with the proposed assay as well as the number and type of samples the investigator is requesting.

All LOI's must be submitted online using the PPMI Specimen Request system. Before uploading this document, investigators are required to agree to the PPMI Biospecimen Use Agreement and must provide basic information about themselves. Click this link to access the PPMI Specimen Request system: www.PPMI-info.org/specimens

All questions about the LOI submission should be directed to ppmi@michaeljfox.org.

NAME:

INSTITUTION:

TITLE OF PROPOSED ANALYSIS:

SAMPLE REQUEST

Briefly outline the number and type of samples requested including visit numbers and subject type (e.g. PD, control, any specific clinical parameters)

RATIONALE

Briefly describe the studies proposed and the rationale for these analyses

DESCRIPTION OF PROPOSED ANALYSIS

Describe the assays to be used, including the previous experience with this assay
